WE ARE GLOBAL!

CL5 V3 LINEAR

The must-have, fully integrated, automated canning solution that cleans, fills and seals cans, ready for sale or retail.

The CL5 V3 is a 5 head filling machine designed to fill and seam standard aluminum cans. It has been specifically designed for the craft beer environment where space is a governing factor. The machine can be stationary or used as a mobile unit. Although it has a small footprint, it still carries all of the equipment of larger canning machines. The CL5 V3 has a footprint of 11' 6" x 2' 6" and has a throughput of cans between 1500 and 2000 cans per minute. Click the Product Data Sheet below for the full details of the unit.

Built in the U.K./No Tariffs/No Duty Tax
The newest Canning Technology Sweeping Across Europe
